

Daggerfall Xtra Quests Volume 3

WELCOME!!!

Welcome to Daggerfall Xtra Quests Volume 3. This is an addition of Daggerfall quests, created by Skeleton Man. Enjoy!

INSTALLATION

These files are quests for Daggerfall. To install, all you must do is copy them to the ARENA2 directory under Daggerfall. They will automatically come up in the game. Be sure to keep this TXT in case you need to know quest names to pass them on, edit them, or delete them.

QUEST DESCRIPTIONS

There is a total of 14 quests. The following is a brief description of each quest, and the file name listing.

Knightly Order Quest 1 - B0b20y19

BOOK DESCRIPTIONS

Along with the quests, you can add this new book to the game.

BOK00113.TXT - The Death Scrolls by Popudax

README.TXT

This book talks about scrolls of power, created by the Necomancers. These scrolls make appearances in some quests from Xtra Quest packs.

ERRORS

If you find an error with one of the quests, TELL ME! It won't get fixed unless you notify me. I will do my best to fix the error.

And please, be specific. Saying "The Fighter's Guild quest won't work" tells me nothing. Describe the problem. For example, "I got the fighter's guild quest to kill the Vampire ancient. When I went to collect my reward, I got told I failed." This explains the problem to me, and I can fix it.

DISTRIBUTION

You may NOT distribute this collection. It is exclusive to my site (or supposed to be), so please don't put it on your site. If you want, you can link to my site, though.

OTHER VOLUMES

The original Xtra Quests is available, as is the SE. The 2nd pack is also available off my website. The URL is at the bottom of this TXT. Please note that the 1st and 2nd packs MAY BE DISTRIBUTED FREELY. The SE version may NOT be distributed though.

As for a 4th pack, probably not. I am done with quest editing. However, if someone out there thinks they are as good or better than I am, go ahead and release some quests. Contact me, and if you want I'll hand over the XQ series to you.

However, when Morrowind comes out, if I can edit quests for that... Can you say, XQM? :)

These quests were created by Skeleton Man (Benji Hauser), using:

DmpQuest for QRC editing
WinQEdit for QBN editing

DMPQuest was written by Michael P. Schneider
(michael@cybermagician.com) with help from many.
Thanks to all those involved in DMPQuest, for without it I wouldn't have ever made anything.

WinQEdit was created by Thomas Hautesserres
(97.thomas.hautesserres@aist.enst.fr) again,
with help from many others. Thanks to everyone
who helped make winQEdit, it was a valuable tool
in making these quests.

Thank you to all my beta testers that smoked out the bugs in the

README.TXT

quests. Also, thanks for putting up with me taking so long to
get them to you ;)
